The National Nursery Supply, 8463 S. Van Ness Ave., Inglewood 4, Calif. proudly submits these pictures of just a few living Miniature Trees. It's not possible here to convey the true beauty of these living wonders --- but it gives you an idea. You too can enjoy the genuine beauty right in your own home and likewise share the thrill of personal accomplishment knowing that you cultivated your own miniature tree. Last year over a quarter of a million people thrilled and awed at the spectacle of these trees at the mass display at the Los Angeles International Flower Show. Why not you? Start today!
